- Easy to remove ash catcher

Argentina Santamaria

Product list 

Kingbe Argentina Santamaria charcoal grill

Size : W123*D66*H155cm.

Weight : 85kg.

Cooking area : 90*59cm.

Material : Food-grade stainless steel#304

Material Thickness : 1.5-3mm

Fuel : Charcoal, wood

Wheels : 6 inch

Oil container : 2 pcs

Bricks: 30mm alumina bricks

Brasero : Amber basket made with 12 mm stainless steel rods.

Specification :

- It provides 3 different grilling areas: a main grate with a height adjustable system. The firebox gaucho style brasero allows you to light up the charcoal quicker and with less effort. It maintains your fire lit and away from the food. You can use wood charcoal or firewood based on your preference to grill like a gaucho. Slow cook some short ribs for 4 hours, some Argentine sausage or chorizo or smoke a fish on the main grate. Also includes 304 stainless steel shovel and coal rake. 3 year limited warranty
- Height adjustable grates : this feature gives you the possibility to adjust the height of the grates to control the cooking temperature. Use the wheel to move the main grates up or down depending on what you need (closer to the coals = more heat to sear | away from coal = less heat for slow cooking). It is a feature that you will find in many South American barbecues because it allows you to really master the grill.
- The firebox or brasero : allows you to light up the wood or charcoal quicker and with less effort. It maintains the fire lit and away from the food. You can use firewood or charcoal or a combination of the two based on your preference. We recommend using lump charcoal and firewood. Once coals are ready, they will simple fall under. An easy and practical way to light up the fire and grill like a gaucho.
- Firebricks : to help transmit less heat to the outside panels but also spreads the heat evenly throughout the grill. This feature is well known in the Argentine grill. It is also a must have because it extends the life of the charcoal grill.

Argentina Santamaria

Kingbe Argentina Santamaria charcoal grill

Size : W60*D66*H160cm.

Weight : 76kg.

Cooking area : 60*66cm.

Material : Food-grade stainless steel#304

Material Thickness : 1.5-3mm

Fuel : Charcoal, wood

Wheels : 6 inch

Oil container : 2 pcs

Bricks: 30mm alumina bricks

Feature : Adjustable Height, Folding, Trolley

Specification :

- It provides 3 different grilling areas: a main grate with a height adjustable system. The firebox gaucha style brasero allows you to light up the charcoal quicker and with less effort. It maintains your fire lit and away from the food. You can use wood charcoal or firewood based on your preference to grill like a gaucha. Slow cook some short ribs for 4 hours, some Argentine sausage or chorizo or smoke a fish on the main grate. Also includes 304 stainless steel shovel and coal rake. 3 year limited warranty

Professional Charcoal Oven

Professional Charcoal Oven 70.6cm.

Size : W70.6*D59*H112.7cm.

Weight : 130kg.

Material : Food-grade stainless steel#403

Fuel : Charcoal, wood

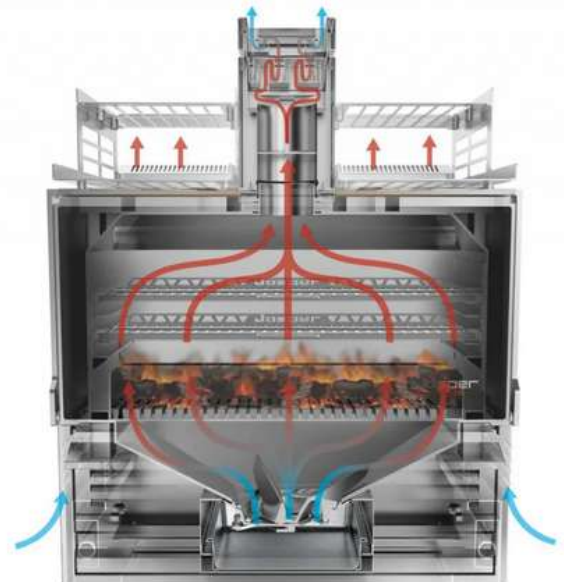

Maximum temp : 800C°

Safety : Flame Safety

Feature : Easily Assembled, Easily Cleaned, Folding, Piezoelectric Ignition

Specification :

- It's intended for use in restaurants that want to offer their customers grilled products of highest quality and want to do so as fast and as economically as possible. The speed of the charcoal grill oven will help you turn more tables than before. Customers can now order succulent dishes with an unmistakable charcoal grill oven aroma. You will use very little charcoal and the kitchen will be heated significantly less than with conventional charcoal grills.
- High-quality insulation and controlled air movement inside the oven make sure that your oven is as sufficient as possible. We managed to reduce charcoal consumption to up to 50% less than what you would use on a conventional charcoal grill of the same capacity.
- Up to 40% faster than on any kind of open grill.
- Perfect solution for a tight space kitchen.
- It's saves on energy and operating costs. If you use e.g. an outdoor charcoal grill, you would use up to 50% more charcoal.
- The temperature is kept constantly high, helping you quickly cook meat, fish and vegetables that taste excellent. It is also suitable for pizzas, flatbread and dishes in pans.
- Stainless steel and the enameled colour front guarantee the shine and durability of the paint despite the high temperatures. Its exterior is not only beautiful, it's also functional. We focused on simplicity of design, which allows you to use the oven without spending a lot of time on installing it and breaking it in. The oven is equipped with a fire break that prevent flames and sparks exiting the oven and it filters out most of the soot.
- Low heat emissions and better working conditions in the kitchen.
- Quick warming up to 30 minutes.

Tandoor Oven

Tandoor Oven 100 litres

Size : W69*D69*H110cm.

Cooking area : W52cm.

Weight : 55kg.

Material : Hybrid ceramic mixed with quartz cordierite and insulation coating(Outside)

Fuel : Charcoal, wood

Maximum temp : More than 800°F or 450C°

Capacity : 100 litres

Wall thickness : 3.5cm.

Prepare food for : 20 people

Included : 10 skewers, Hanging device for skewers, Thermometer, leg-stand

Specification :

- " CONVECTION, RADIANT HEAT AND SMOKING "
- The ever-popular Tandoor Oven is crafted from chamotte clay and features a stunning design. With a practical hinged lid and 100 litre capacity, this Tandoor allows you to simultaneously prepare food for up to 20 people. Our hand crafted clay ovens deliver an authentic cooking experience. Tandoors have been used for centuries making the world's most familiar and delicious dishes. Provide our tandoors the authenticity of one of the original forms of cooking. Cooking with a tandoor is simple, captivating and delicious. Since you are not cooking only on the heat from the coals in your tandoor, you will never have to turn, flip or brush. Simply load, enjoy aromas, then feast.
- Traditional flatbread done right : Slap naan, lavash, roti, or any other flatbread directly to the inside wall of your tandoor. Watch it bake perfectly in just a few minutes.
- Roast a whole leg of lamb, skewers of chicken, vegetables : or cook them all at the same time.

GAS BBQ 3+1 Burner

El Fuego® Gas Barbecue 3+1 Burner

Size : W130.5*H117.7*D52cm.

Weight : 55kg.

Cooking area : W41*H28*D51cm.

Material : Food-grade stainless steel#304

Cooking grates : Porcelain enamel-coated cast iron

Temperature : 100~700°F or 50~450C°

Fuel : Gas(Butane/Propane)

Main Features :

- This grill is manufactured to the highest quality standards and meets all applicable standards to ensure the highest possible safety when grilling. With this gas grill from El Fuego, different types of preparation can be easily implemented.
- The powerful gas burners generate enough heat to ensure a reliable cooking process even with fully occupied cooking chamber. A side burner also allows additional flexibility, e.g. you can cook a sauce at the same time.

Specification :

- Spread out and take charge of the huge cooking capacity offered by a large grill and hotplate area. The warming rack and side burner add another dimension and also allows you to move food around once it has finished cooking.
- The large side shelves allow you to prepare food close to the grill.
- The powerful side burner allows you to cook seafood and stir fry's just like you are indoors on a cooktop.
- Stainless steel separate burners, 12000BTU each, side burner with 9000BTU
- Removable grease pan from the back of BBQ
- Left side stainless steel shelf offers increased durability and provides ample work and prep space.
- With four 3" multi-directional caster wheels design, easy to move to and from
- Lid-mounted temperature gauge provides the griller with increased heat control.
- Piezo ignition system, easy to start up
- Two-door cabinet for stand gas cylinder or store materials

Plancha Brasero

KINGBE Brasero(Corten grill style)

Size : 100cm.

Weight : 106kg.

Material: COR-TEN® steel (High quality weathering Corten steel material)2mm.

Material Grid : Enamelled steel10mm.

Finish peel : rust effect

Fuel : wood, charcoal

Style : Contemporary

Cooking methods : Plancha

Main Features :

- Unlike traditional outdoor heaters, a fire pit offers 360 degrees of open flame and will bring an entertaining, alluring, and captivating element to your outdoor living space.
- Corten steel Barbecue fire pit table with grill can be left outside the whole year round without the need for cover.

Specification :

- The Bowl : The seam of the bowl is welded with special weathering steel electrodes which have the feature of high temperature resistant.
- The Base : The base is made from a special grade of steel which contains copper (Corten). Corten steel is sometimes called weathering steel.
- The top plate : made of sufficiently thick carbon steel. This type of material prevents the shape from changing when exposed to high temperatures for a long time.
- Offers you the possibility of moving it easily thanks to its 4 castors (including 2 swivel).
- The support part of the grill is divided into two separate shelves, which can be used as a storage compartment for kitchen utensils or firewood.
- It is easy to clean and requires almost no maintenance: just push cooking residues back into the can and clean the ring with a wet cloth. The device will be ready for use again.
- Ecological, because completely recyclable

Package includes :

1 x centre grill plate - flat, diameter 35cm.

1 x centre grill plate with legs, diameter 35cm.

BBQ backyard

BBQ backyard fire pit

Size : Diameter 46cm * High 46cm.

Weight : 15kg.

Material: Steel material and heat-resistant finish

Fuel : Wood, charcoal

Main Features :

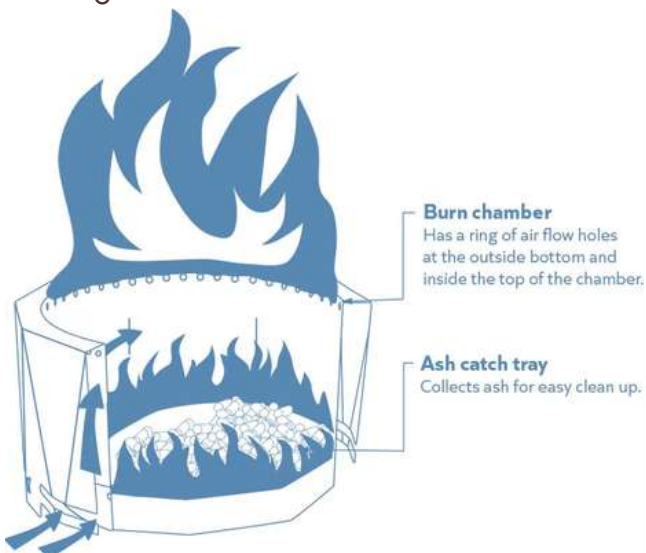

- **EFFICIENT DESIGN**- New patent pending design allows for incredibly efficient burns, achieving up to 1,400°F (760°C), which produces less smoke and embers.
- **HEAVY-DUTY** - Made with steel and coated in high-temperature paint for long life. **REFINED** design with an increased amount of durable welds to strengthen the grate.
- **DUAL FUEL** - Use either, or both, standard firewood and/or wood pellets to generate a significant amount of heat.

Specification :

- Easy to set up, use, clean, and store
- Lightweight design allows for easy transportation and storage
- Accommodates full-size 16-inch logs

How it works :

- Outside air is pulled into the bottom ring of holes on the burn chamber and moves through the hollow wall up to the inside ring of holes.
- The heated air is released through the inner ring of holes into the top of the burn chamber, infusing the fire with an extra boost of oxygen which improves the burn.
- The improved burn vaporizes wood particles, creating little to no smoke or embers.

OUTDOOR&INDOOR PIZZA OVEN

PIZZA OVEN GRILL

Pizza oven grill&bake55cm.

Size : W120*H129*D51cm.

Weight : 18kg.

Cooking area : Diameter 40.6cm
